Lima One

The radiator has a built-in ONE heating element.

Colour included in the price

Available sizes:

Lima One

The radiator has a built-in ONE heating element.

Colour included in the price

A — Height B — Width C1-C5 — Distance between pipe centres D — Horizontal distance between mounting bracket centres
E — Vertical distance between mounting brackets F — Distance between a mounting bracket and the bottom of the radiator

Collector:

Profile:

Product codes can be found in product data sheet tables. The codes provide some basic information about the product while a partially filled configuration code contains complementary information about the detailed specifications. When placing an order, product codes should include the fully completed configuration part. The configuration code part should be placed after the main product code. The main product code and configuration part will appear as shown in the example below:

The Construction of the product and configuration code for a radiator with the built-in heating element ONE

Lima One

The radiator has a built-in ONE heating element.

Legend

Available in chrome finish.

Radiator available in a "water" version.

Radiator suitable for dual fuel connection. Electric heating element can be installed.

Radiator available in electric only version. It comes prefilled with a 'heating medium' and equipped with a heating element. All tested and ready to use.

Connection types dedicated for this radiator.
The icon shows the flow and return connections for the radiator as well as the thermostat valve and heating element position if applicable.

Optional connections available for this radiator.

Suggested heating element power output for electric and dual fuel versions.

Weight.

Capacity.
