

# Mantis One

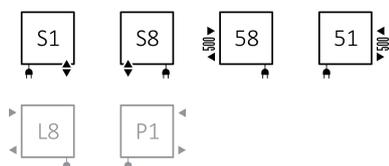

The radiator has a built-in ONE heating element.

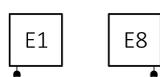

Colour included in the price

design: *Terma*

## Connections:

Electric radiators:

## We recommend:

A set of integrated thermostatic valves with immersion tube for S1 and S8 connections

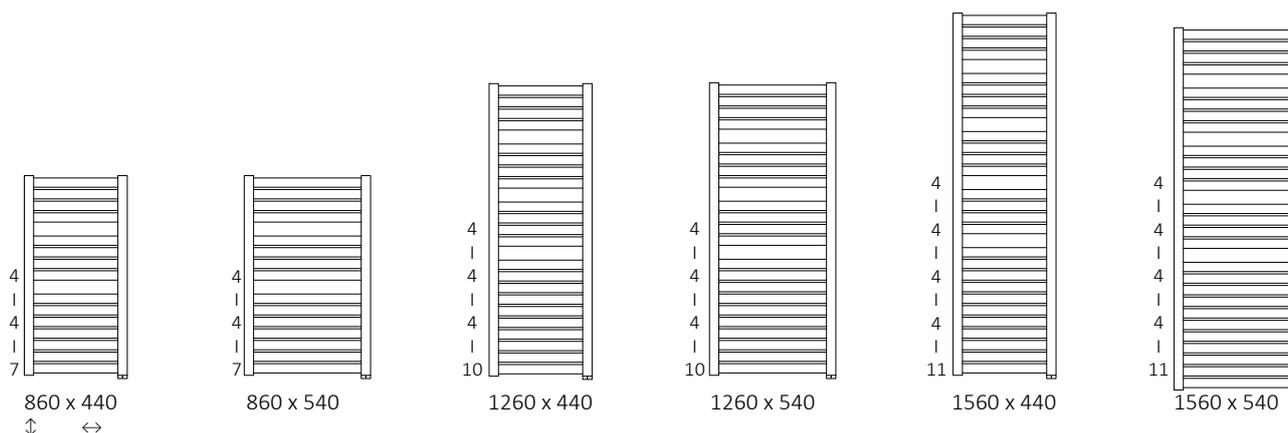

Integrated pipe-masking set

ZIP H hanger

## Available sizes:

## Specifications:

Working pressure: 0,8 MPa    Maximum operating temperature: 82°C

Product codes can be found in product data sheet tables. The codes provide some basic information about the product while a partially filled configuration code contains complementary information about the detailed specifications. When placing an order, product codes should include the fully completed configuration part. The configuration code part should be placed after the main product code. The main product code and configuration part will appear as shown in the example below:

## The Construction of the product and configuration code for a radiator with the built-in heating element ONE

WWBNN076050

K916E1W

PRODUCT CODE  
(located in the table for the product)

CONFIGURATION CODE  
(supplemented by hand)

### Configuration

K 916 E1 P

Package code   Colour code   Connection code   Type of heating element cable code  
*K – carton box*

### Zinc powder primer

**C** – Code of zinc powder primer is an extra processes

WLAL054030 K916SX **C** — *Extra processes or additions code*

# Mantis One
