The radiator has a built-in ONE heating element.

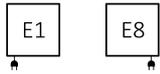

Colour included in the price

Product codes can be found in product data sheet tables. The codes provide some basic information about the product while a partially filled configuration code contains complementary information about the detailed specifications. When placing an order, product codes should include the fully completed configuration part. The configuration code part should be placed after the main product code. The main product code and configuration part will appear as shown in the example below:

## The Construction of the product and configuration code for a radiator with the built-in heating element ONE

WWBNN076050
